

## Building

# PSPF I house – Golden Jubilee Towers

### Client:

Director General of Public  
Service Pensions Fund

---

### Project Summary:

Start date July 2008

Completion date October 2011

---

### Project status:

Completed

---

### Interesting fact:

It involved installing a revolving  
platform restaurant, the first of  
its kind in Tanzania.

---

**The project involved construction of commercial purpose, 21 storey building.**

It is a modern facility comprising of offices, restaurant, swimming pool, gyms as well as 7 level parking blocks. Our services also included installation of electrical services, installation of lifts and escalators, data and telecommunication services, security services and water facility services.

The client was impressed with our work and we were awarded the construction of PSPF II while the construction of PSPF I was still ongoing.

connect, commit, construct.
